Washington - The theme song in the only detail lacking when the Republican leaders visited the President was a few rose petals to strew in the path of the smiling visitors.

This is definitely the honeymoon. How long it will last is quite another matter. The Republicans have bumped up Josef Stalin, the Russian dictator, at face against the facts of life. The paean of triumph with which this session of Congress began has subsided. As a matter of

The Washington Merry-Go-Round

BY DREW PEARSON

Washington - At the exact moment President Truman's tightrope-walking Secretary of War Bob Patterson was refusing to help beleagured Gov. Ellis Arnall of Georgia, President Truman himself was

blasting Arnall's chief foe, the Ku Klux Klan. Truman's blast took

place at the first meeting of his committee on civil rights, organized to combat bigotry and race prejudice. The President talked straight - fromthe-shoulder and the churchmen, businessmen and educators who com-

prise his committee were greatly impressed. Livest members of the new committee turned out to be Charles Luckman, head of the Giant Lever Brothers Soap Company. Dullest was Charles E. Wilson, pontifical head of General Electric. Ap-

big objectives New York attorney Morris Ernst, author of "The Four Freedoms," caused a buzz of discussion at the closed-door meet-

pointed chairman of the civil rights group because he knew Truman back in the days

of the old Truman committee, Wilson

seemed more engrossed in details than in

ing when he proposed: "Why not invite the Ku Klux Klan, the Columbians and Gerald L. K. Smith to give us their views on racial prejudice also? There is no reason why we should shut our ears and hear only one side. Our final report will be stronger if we hear

both sides.' Another proposal the civil rights committee considered was withholding federal funds from state universities which discriminated against racial or religious groups. Such a provision, introduced by Republican Senator Langer of North Dakota two years ago, killed the federal education fund, aimed at aiding public schools and raising teachers' salaries. When Langer introduced his nondiscrimination amendment, southern congressmen threatened a filibuster.

NOTE-Mainspring behind the organization of the civil rights committee was Attorney General Tom Clark who, though What do you want to know? We from the south, has consistently crusaded for protection of civil rights.
